Don - do we have any action on this? I agree - this should be an enforcement issue...is it? If the AFO is less than the federal threshold, it wouldn't be an EPA issue - but it may be a state issue. Is there a role for NRCS here too?

Lynda & Katie,

Here's Yet Another Letter from Nina Bell (NWEA)--this time with a short video to accompany it. I needed Apple QuickTime to play it, and while I could not tell exactly what I was seeing, the explanation in Nina's letter seems reasonable. I'd add that this issue may be one of enforcement rather than insufficient policies or authorities.

Don
